### Analysis by the Legislative Reference Bureau

Under current law, the Department of Health and Family Services (DHFS) was required to request a waiver from the secretary of the federal Department of Health and Human Services to conduct a demonstration project, under the Medical Assistance Program, to provide family planning services to any woman aged 15 to 44 whose family income does not exceed 185 percent of the federal poverty line for families the size of the woman's family. DHFS was also required to implement the waiver, if granted, by July 1, 1998, or the waiver's effective date, whichever was later.

This bill changes the minimum age requirement, from 15 to 18 years, for eligibility for the Medical Assistance Program demonstration project to provide family planning services to any woman whose family income does not exceed 185 percent of the federal poverty line for families the size of the woman's family.

For further information see the **state and local** fiscal estimate, which will be printed as an appendix to this bill.

I talked to Deborah Kennedy (the LRB drafting attorney for this bill) .... she said it was OK to remove "Health-Abortion" from the subject area (I already did this). She said for drafting purposes it falls in the general abortion area but as it relates to the agency it would not. If this problem pops up again let me know ... we can then check into it on a case by case basis.

Hi Mike,

Could you change the subject title of this bill? It is showing up as "Health medical assistance; Health - abortion." The bill has nothing to do with abortion. It raises the minimum age of the family planning waiver from 15 to 18. The waiver allows women who would not ordinarily be eligible for MA to get MA family planning/reproductive health services, but the waiver benefits do not include abortion.

Thanks.
